

ATMO 1300 Section 001
In-class Worksheet #5
July 24th, 2017
Chapter 9

1. Identify each of these front types below.

2. Using the meteogram below, what type of front did this station experience?
Explain how you can tell.

3. What type of weather conditions will an observer to the east of a cold front experience before and after a front passes by?

4. What type of weather conditions will an observer to the north of a warm front experience before and after a front passes by?
